This week London's Barbican Centre hosted a cocktail competition with a difference, as a team of bartenders took on robot mixologist the Makr Shagr.

As part of the centre's AI: More than Human exhibition, bartenders including Felix Cohen from Every Cloud Bar and Mikey Pendergast from East London Liquor Company mixed up cocktails using the same ingredients available to the robotic bartender.

After a hotly fought contest, the judges crowned the human team of bartenders victorious after Pendergast impressed with his More than Human cocktail.
